

# BEYOND POWERPOINT

- ✓ Are you or your students becoming bored using PowerPoint as the main tool for producing presentations?
  - ✓ Are you or your students suffering from "Death by PowerPoint" or "PowerPointlessness"?
- Then this session is designed specifically for you!

**8 Sep 10 (Wed), 9am to 5pm**

In this one-day workshop, we will look at some of the alternatives for spicing up your presentations and making them more exciting, not only using software but also web 2.0 online applications. The alternatives chosen are mainly free, can be learnt in just a few minutes by teachers with very little experience and make use of the slides you have already produced in your old PowerPoints.

We will also look at ways in which students can build and share their presentations collaboratively. In addition, you will be shown where to find free (legal) resources for presentations (images, videos and sound files) and clarify how to copyright your own resources.

Please note that this is **NOT** a workshop about PowerPoint although we will be spending time at the beginning covering some of the mistakes students make when presenting and also ensuring we all have at least the basic skills of reducing file sizes and exporting slides.

**NOTE:** Please bring a simple PowerPoint presentation consisting of about 6 slides with you to this session.

### ABOUT THE SPEAKER:

**Mr Chris Smith** has been working with International School teachers in S.E.Asia for 28 years. He was the ICT Advisor for English School Foundation (ESF) in HK where he was responsible for writing, monitoring and evaluating the Foundations overall ICT Development Plan.

In 2002 he established a consultancy "The Education Project Asia" to extend these support opportunities to other International Schools across 17 countries in S.E.Asia focused on the "Integration of ICT in Teaching and Learning". Recently, he has been working as the evaluator of a UNESCO project (SchoolNet) which involved schools from eight ASEAN countries.

### ABOUT THE ORGANISER:

**Synergyst** is a training consultancy that provides a wide range of services, including workshops, enrichment programmes, exciting science and maths shows, educational trips to Thailand, China and Malaysia and designing of Science and Maths corners or exhibition.
