

# Fun Science Ideas Around Us!

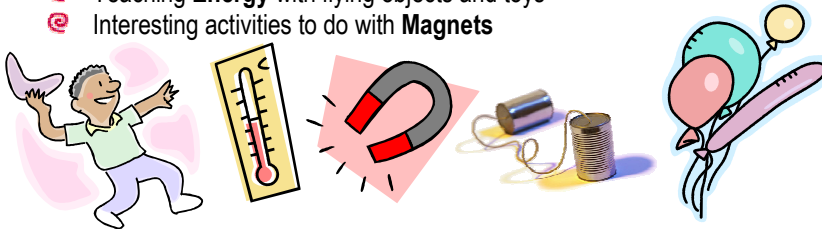

**Date: 1 Jun 2011 Time: 2.30pm to 4.30pm Venue: Bras Basah Complex**

**Join us for an interesting 2-hour talk where Dr Janchai will share with you fantastic ideas you can use in making your Science lessons fun and enjoyable!**

Dr Janchai is an expert in using fun toys, manipulative materials and hands-on activities to bring out Science concepts so that students find fun and interest in learning the subject. In this mind-enriching talk, he will share ideas on:

- ☉ Teaching **Temperature** using home-made simple thermometer
- ☉ Teaching **State of Matter** through Magic Experiments with Rubber Balloon
- ☉ Fun exploration on the Science of **Sound**
- ☉ Teaching **Energy** with flying objects and toys
- ☉ Interesting activities to do with **Magnets**

The ideas you have gathered from this talk can be used in your classroom straight away. You will be surprised how items that are easily found around us can be used to teach interesting science concepts to students from Primary to lower Secondary level. Simple hands-on may be encouraged during the talk and participants will be able to bring back some items which they can use in class.

## About the Organiser

**Synergyst** is a training consultancy passionate in promoting *Professional Development of Teachers & Experiential Learning of Students* through Creative Teaching and Learning.

Working with a pool of enlightened and world-renowned professionals, we provide a wide range of services, including workshops, enrichment programmes, exciting science and maths shows, educational trips to Thailand, China and Malaysia and designing of science and maths corners or exhibition.

## About the Speaker

**DR. JANCHAI YINGPRAYOON** was the first Asian President of the International Council of Associations for Science Education (ICASE). He was also Head of Physics Department and Assistant to the Director of the Institute for the Promotion of Teaching Science and Technology (IPST), Bangkok; and the Chairman of Science Teachers' Section, Science Society of Thailand. He is a creative and humorous lecturer who makes learning science fun and meaningful. He is particularly interested in teaching science with toys and hands-on activities. Dr. Janchai is a very well known international speaker in science education. He has been invited to many international conferences as keynote speaker. He has conducted extremely innovative workshops in many countries around the world such as China, Malaysia, Singapore, Hong Kong, Indonesia, Germany, England, France, Hungary, Canada, Argentina, Italy, India, Spain and Sri Langka, etc.

Yes! Please register me for **"Fun Science Ideas Around Us!"**, 1 Jun 2011, 2.30–4.30pm, Bras Basah Complex

Normal rate of S\$30nett/person     Group rate of S\$25nett/person for 3 or more     Past participant at \$20nett\*
